Dockside, Cockle Bay Wharf,  
Darling Harbour, Sydney

8am Registration

5:00pm Finish

CE Credits apply (lunch included)

## DR DAVID NEWKIRK

Dr Newkirk is a nationally, and internationally recognized speaker on aesthetics with predictability.

He has been a featured lecturer for the Chicago Mid Winter, American Equilibrium Society, British Academy of Cosmetic Dentistry, among others. Dr Newkirk is a distinguished faculty member and instructor at the Dawson Center for Advanced Dental Studies.

A strong background in Occlusion and a passion to deliver quality, comprehensive dentistry, are the cornerstones of Dr Newkirk's practice philosophy.

*"Time spent with Dave Newkirk is always extremely rewarding. His tremendous knowledge of the literature backs up an exceptional grasp of clinical experience in restorative and aesthetic dentistry. His concepts of occlusion and aesthetic restorative dentistry are as solid as you will find. Dave's illustrations that help in understanding basic premises of treatment are some of the best. Don't miss the opportunity to hear this man if you have the chance"*

Peter E. Dawson –  
Founder, Dawson Center for Advanced Dental Study

## SUMMARY OF DAY

Function and aesthetics should not be two disciplines; they should be blended together to form healthy, predictable, beautiful and stable results.

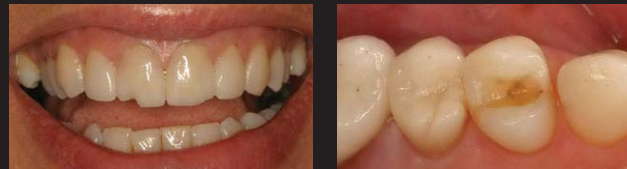

This program shows you how to apply these principals to obtain aesthetic success and functional stability.

By attending this day you will arm yourself not only with the clinical information needed for predictability, but also the vital communication skills to help patients understand the value of a functionally aesthetic smile.

"CAN YOU AFFORD NOT TO ATTEND?"

## THE 3 RULES OF LONGTERM AESTHETIC SUCCESS ARE:

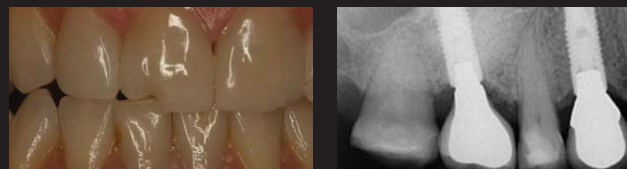

### Occlusion

### Occlusion

### Occlusion

## LEARNING OBJECTIVES

- How to avoid chips, and fractures in your porcelain restorations.
- "Adjust them low, let them grow" Why this is wrong.
- Avoiding post-op sensitivity with crowns.
- CASE PLANNING - How to plan simple and complex cases anteriorly and posteriorly.
- Determine what exams and records are required for diagnosis to deliver ideal aesthetics and function.
- The 4 steps to functional, aesthetic and occlusal success.
- BRUXISM – how to treatment plan and what type of success is expected.
- SPLINTS – when to use and why, different types and their success.
- How to diagnose with confidence the TMD patients, which ones to treat and who to refer.
- Occlusal risk management assessment and communicating long term expectations to patients.

A "MUST ATTEND" FOR DENTISTS, LAB TECHNICIANS, DENTAL STUDENTS.

THE DAY WILL INCLUDE TRADE DISPLAYS WITH PRODUCT SPECIALS FOR ATTENDEES.

*"David Newkirk has presented extensively throughout the US lecture circuit and has impressed me with his explanation of occlusion in long term aesthetic success. I constantly use the Dawson principals of occlusion in my aesthetic practice with great results"*

Dr Derry Rogers
